Easter Message from Bishop Laurie Skow-Anderson April 2023

Matthew 28 After the Sabbath, as the first day of the week was dawning, Mary Magdalene and the other Mary went to see the tomb. And suddenly there was a great earthquake, for an angel of the Lord, descending from heaven, came and rolled back the stone and sat on it... the angel said to the women, "Do not be afraid, for I know that you are looking for Jesus who was crucified. He is not here, for he has been raised, as he said... go quickly and tell his disciples."

Dear Northwest Synod of Wisconsin,

Join me and that great cloud of witnesses this Easter in the acclamation:

Christ is Risen, He is Risen indeed, Alleluia!

The gospel reading for this Easter is from the book of Matthew. Matthew is the only gospel writer that records an **earthquake** on Easter morning. The women arrive at the tomb and are greeted by an earthquake, an angel rolling back the stone, and the news that their Lord and Savior wasn't there, JESUS HAD BEEN RAISED FROM THE DEAD. What? The women were filled with shock and fear. The aftershocks of this earthquake are still felt. The news that death doesn't win and is defeated by the power of God in Christ Jesus continues to shock and amaze us.

What if we imagined Easter not as a lovely spring ritual filled with pastel-colored eggs and candy but as the violent earthquake that it is? Few living in the Midwest have experienced an earthquake. A pastor born in California remembers her mother putting rubber bands on the kitchen cupboard handles so the china dishes wouldn't fall out when there was an earthquake. When has a death of a loved one shaken the foundation of your world? When have you realized how fragile life can be? Christ's resurrection from the dead, his victory over sin, death, and the devil shakes up everything. It is the good news that can even shake us loose from our grief.

What if we experienced Easter as a violent earthquake more like a fresh egg dropped to the floor than one hard-boiled and beautifully decorated? What if the Easter Earthquake shakes us awake, shakes everything out of the cupboards and closets so we are forced to do spring cleaning and decide what to put back and what to throw out? What if we get rid of stuff that doesn't work and give more space to what's important? What is really important? What is God's will for you? What are our Easter priorities?

What if this year the Easter Earthquake cracks open and rolls away the stone from our hearts, shakes loose old ideas, breaks down rock-hard prejudices, and opens us up to new ways to love our neighbor and to share this amazing good news that Jesus lives? What new life might rise up from the rubble? What new relationships might develop? Like a chick struggles to break free of the egg's shell, new beginnings are rarely easy, but they are worth it.

The good news is that Christ's resurrection from the dead and his victory over death is good news even to those who have experienced a literal shifting of tectonic plates beneath the earth. On February 6, 2023, a 7.8 magnitude earthquake hit Turkey and Syria leaving over 50,000 people dead and hundreds of thousands more wounded, displaced, or homeless. More than 10,000 aftershocks have been felt since February 6 leading to more deaths, fear, and trauma. The aftershocks will continue for a long time.¹

This Easter, in response to the earthquake that opened the tomb and to the good news that Jesus has been raised from the dead, I encourage you to give a gift to the Lutheran Disaster Response to help the victims of the Earthquake in Turkey and Syria. Here is a link to help you do that. <u>https://community.elca.org/middle-east-crisis?_ga=2.89763675.1129066314.1679579365-256581953.1608055964</u>

Suddenly there was a great earthquake...

In Christ,

Rev Jauri Sha. Quisn

Bishop Laurie Skow-Anderson
